**NOTICE OF ROAD CLOSURE ON BARNESVILLE ROAD**

March 6, 2012

Dear Resident:

This letter is to update you of the upcoming drainage repair project on Barnesville Road at Bucklodge Creek, near the intersection with Peach Tree Road. The Montgomery County Department of Transportation's (MC DOT) Division of Highway Services will be managing the project. The closure is the result of a pipe failure where Bucklodge Creek passes under Barnesville Road.

The failed pipe is 5-feet in diameter and situated 15-feet below the road elevation. The repair requires the road to be excavated, pipe removed, new 60-inch pipe installed, backfill and compact material around the pipe, and reconstruct the roadway. This work also requires extensive excavation, stream diversion and construction of new concrete end walls on each side of Barnesville Road.

This project is scheduled to start immediately and will take approximately eight weeks to complete, weather permitting. **Please follow the detour signs for alternate routes.** Work hours are from 7:00 a.m. to 5:00 p.m. This type of comprehensive infrastructure preservation project is generally characterized by some noise and low levels of dust. However, DOT will do its best to keep the site in good housekeeping order. We apologize in advance for the unavoidable inconvenience this project will cause and sincerely appreciate your cooperation. We are confident that residents and users of Barnesville Road will welcome the results of this improvement.

Please visit our website for more information and project status:
